

MUHAMMAD REHAN KHIMANI

WEB DEVELOPER

Aspiring Web Developer with hands-on experience in building responsive and interactive web applications. Proficient in front-end technologies including HTML, CSS, JavaScript, and React.js, with working knowledge of back-end tools like Node.js, Express, and MongoDB. Developed multiple personal projects to simulate real-world workflows and strengthen full-cycle development skills. Committed to continuous learning and eager to contribute to dynamic and collaborative development teams.
